Note: The execution of the works may vary depending on the weather. (AN*) According to needs

WORK METHODOLOGY:

- 1.- Pruning of the hedge (*Ficus microcarpa*), according to the established order.
- 2.- Mowing and shaping of the lawn, at the same time, any residue generated during the hedge pruning is removed.
- 3.- Insecticide treatment against *Macromotoma gladiata* in previously pruned hedges of *Ficus microcarpa*.
- 4.- The cleaning of the inert surfaces of the children's playgrounds will be carried out on the same days as the mowing of the lawn.
- 5.- Once the hedge pruning is finished, the work teams will be diversified to tackle other gardening tasks (checking and cleaning inert surfaces, painting children's playgrounds, etc.).
