Note: The execution of the works may vary depending on the weather.

WORK METHODOLOGY:

- 1.- Hedge pruning, (Ficus microcarpa), according to the established order.
- 2.- Mowing and shaping of the lawn, at the same time, any residue generated during the hedge pruning is removed.
- 3.- Insecticide treatment against *Macromotoma gladiata* in previously pruned hedges of *Ficus microcarpa*.

NOTE: In the coming weeks an order of **scarifying and reseeding** will be established for each garden (private and communal), if the work described above has been carried out satisfactorily.
