Note: The execution of the works may vary depending on the weather. (AN*) According to needs

WORK METHODOLOGY:

- 1.- Hedge pruning, (*Ficus microcarpa*), according to the established order.
- 2.- Mowing and shaping of the lawn, at the same time, any residue generated during the hedge pruning is removed.
- 3.- Insecticide treatment against *Macromotoma gladiata* in hedges of *Ficus microcarpa* previously pruned.
- 4.- The preparation of the terracing areas of the children's playgrounds will be carried out in the same order as the mowing of the lawn corresponding to your garden.

NOTE: Scarifying and reseeding will depend to a large extent on the availability of irrigation water for the green areas within the Resort.
