SUMMARY

During the first half of the week, lawn mowing has been carried out in Gardens 3, 4, 5, Indoor roads and Sports courts. As a result of rainfall received during the second half of the week, the lawn mowing work in Jardines 7, 8, 9 has not been completed. These works will be carried out next week.

In turn, the pruning of the oleander hedge (Nerium oleander) has continued, despite the inclement weather. This work will continue next week.

In addition, the Teucrium, plumbago and pittosporum hedges present in the planters in block 4 have been pruned to facilitate the building's painting work.

As in previous weeks, palm tree pruning work has continued in the outer ring and insecticide treatments have been carried out against the red weevil.

It has also carried out: placement of bases on beacons in Naranjos 3 and 4, routine maintenance of swimming pools, review and repair of irrigation system breakdowns, as well as other incidents.
