Images. Examples of freshly reseeded plots with "Cynodon dactylon" grass seed and "mulch" cover.

SUMMARY

During the past week the lawn mowing has been carried out in Jardines 1,2, 3,4,5,7; Sports tracks; Interior roads and, Exterior landscaping.

On the other hand, hedge cutting has been carried out in Naranjos 4, 5, 6, 7, 8. At the same time, the pruning of palm trees and trees in those same areas has been carried out.

Regarding phytosanitary treatments, herbicide and insecticide treatments have been carried out on the hedge of "Ficus" and seasonal flowers.

In addition, the leveling of the access bridge to the Island, the installation of umbrellas, the ordinary maintenance of swimming pools, the revision and repair of breakdowns in the irrigation system and other incidents have been carried out.

In response to one of the community's requests, a hydric polymer has been applied in some gardens on the Island to analyze and evaluate their water consumption and ornamental status.
