SUMMARY

During this week, lawn mowing has been carried out in Naranjos 1, 2, 3, 4, as well as in Villas Jana, on inner road and on external landscapes.

On the other hand, this week the hedge trimming has been carried out in Penthouses road, as well as in the Penthouse planters, while in Jardín 12 it is almost finished.

Regarding phytosanitary treatments, the treatment against red palm weevil has been continued, the treatment against mosquito has been carried out on La Isla lake, and herbicidal treatment have been realized in external landscapes too. In addition, an insecticidal treatment has been carried out on geraniums and in some hedges of Naranjos 7.

Also routine maintenance of swimming pools has been carried out, irrigation system reviews have been carried out and geraniums pruning have been carried out.

It should be noted that the state of the lawn and the state of the irrigation system is being reviewed in the central reservation of Naranjos road. Likewise, lawn is being transplanted in those deficit areas, coming from the lawn areas that is being removed in the landscaping work of the outer ring.
