**SUMMARY**

During this week, lawn mowing has been carried out in Jardín 13 prime as well as in Naranjos 1, 2, 3, 4, 5, 6, Villas Jana, in Naranjos road and on outer and inner landscapes.

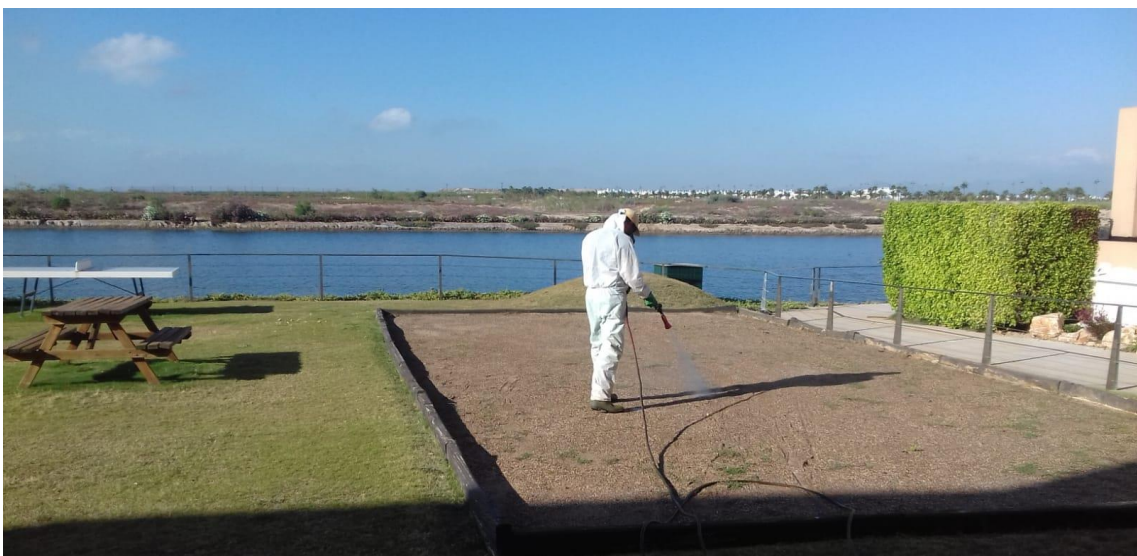

On the other hand, this week the hedge trimming has been carried out in Penthouses, Jardín 2, 3, 4 while in Jardín 5 it could not be completed this week.

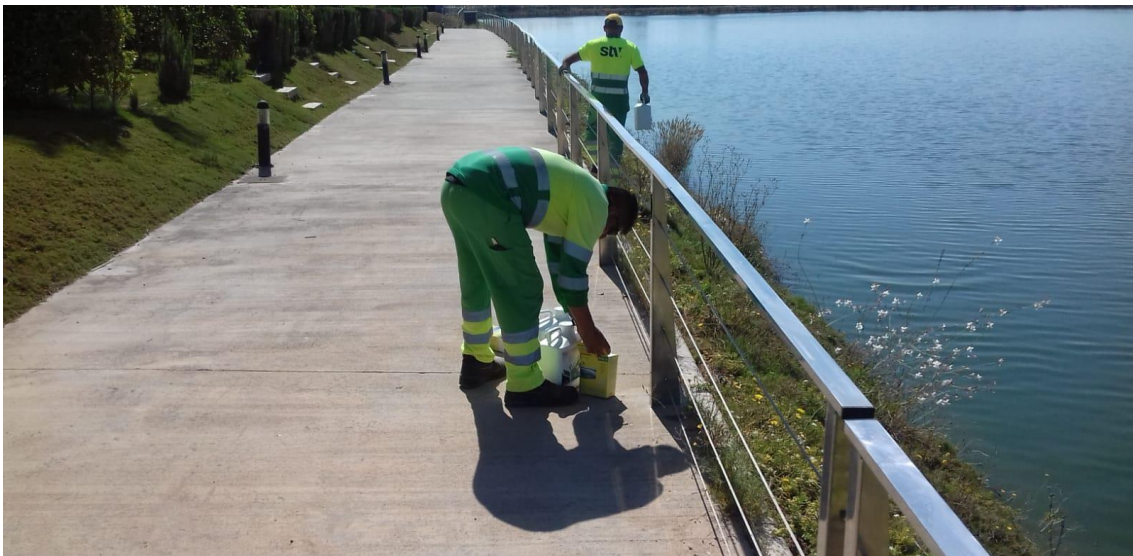

Regarding phytosanitary treatments, the treatment against mosquito has been carried out on La Isla lake, insecticide treatment has been carried out on geraniums, fungicide treatment has been carried out on the cypresses of the new landscaping and a herbicide treatment has also been carried out on the new landscaping of the outer ring and on the petanque courts on La Isla.

It should be noted that this week we have continued having problems with the water stored in the irrigation lake and we have had to carry out another treatment against algae. While in the ornamental lake we have carried out a preventive treatment by using bacteria to combat the appearance of algae.

Also routine maintenance of swimming pools has been carried out, irrigation system reviews have been carried out, the palm trees pruning on La Isla has been carried out and the palm trees pruning on Penthouses has started. On the other hand, the furniture painting in Jardin 5 has been completed and continues in Jardin 7.

Additionally, this week the maintenance of the Municipal Park has also been carried out, eliminating weeds and new shoots in trees.

**EXTRAS**

Another work that the gardening team has carried out this week has been the removal of weeds and the irrigation of the new pine trees that were planted weeks ago.
