Images. Examples of freshly reseeded plots with "Cynodon dactylon" grass seed and "mulch" cover.

SUMMARY

Durante la pasada semana se ha llevado a cabo la siega del césped en Jardines 1,2, 3,4,5,7; Sports Courts; Inner roads and Outer landscapes.

During the past week, (June 21 - June 27), the private lawn plots corresponding to the houses were replanted:

Community	Houses
Jardines	1335; 131; 137; 549; 515; 95; 497; 977; 45; 1181; 1182; 785; 523; 979; 43; 455; 439; 479; 821; 660; 17; 605
La Isla	45

Hedge pruning has been carried out in those houses where the plant species is "Pistacia lentiscus", (Jardines 12 y 13).

Regarding phytosanitary treatments, insecticidal treatments have been carried out against the “red weevil” in palm trees of the Phoenix genus in the outer ring.

In addition, the ordinary maintenance of swimming pools, the revision and repair of breakdowns of the irrigation system and other incidents have been carried out.

Another work to take into account has been to carry out the treatment on the “35” rainwater reservoir, to avoid the proliferation of organic matter and algae.
