*Note: This schedule may change depending on the weather or progress of the works.*

**Comments**

*Hedge trimming in properties has finished. At the end of December/beginning of January, we will begin trimming the oleander hedges on the exterior and interior roads.*

*Also, phytosanitary treatments are being reduced to the minimum due to the low activity of insects and possible plant pathogens.*

*Irrigation has been cut, due to high humidity in the soil and the recent rain, for at least 2-3 weeks.*
