Telephone and Internet Services for Condado de Alhama  
Golf Resort 2023

# Internet, telephone and television for large resorts

Elitesa is a telecommunications operator that offers its customers a wide range of services including high-speed Internet, telephony and television.

In elitesa we especially think about those who like controlling their lives and the way they communicate (sign up, change their fee, cancel the service, etc.), and of course to get the best rates and conditions:

- > Unlimited plans. You can talk as much as you want, surf all the time you want. All for a fixed monthly fee so that you can control your spending.

- > No long term contracts. You choose the time you want to stay and you can leave whenever you want with no explanations.

And all at the best price. We know that there are services not everyone uses and that you do not have to sign up if you pay less. We have focused exclusively on giving you the best offer without losing quality. A new form of communication. Freedom of communication.
